

## **Northwind Harbor**

7410 Route 14  
Sodus Point, NY 14555

Dear Boater,

Thank you for your expressed interest in docking your boat at Northwind Harbor. Our annual reservation process begins shortly after the New Year. Our initial seasonal correspondence is sent out to last year's boaters by February 1st. Returning renters have first choice at reserving their slip for the upcoming season. Responses from the previous year's renters are requested in by March 1st, at which point any available slips are offered up on a first come first serve basis to new parties. In the event of a no-vacancy season, new inquiries can be placed on a waiting list for the following season.

Slip fees are set on the size of the slip that is reserved, regardless of the length of the boat. Currently there are two classes of slips, B-dock (smaller slips), and C-dock (larger slips with power). You will find our rates are among the lowest on the bay.

Slip agreements generally run from May, and terminate October 15th. The October 15th deadline is important as our harbor utilizes a floating dock system. At the end of each season our crew disassembles and removes the docks from the water.

Below is a Request for Dockage Agreement Form. To find out more about current slip availability, please complete the form and send it either via email or postal service to the return address listed at the top of the form.

Upon receipt of your form, we will determine whether an opening is available to accommodate your vessel. If an opening is available, you will be notified of the opening and the seasonal rate for the slip. Upon your approval, a dockage agreement form will be sent out which needs to be signed and returned by the pre-determined date. If no slips are available, you will have the option to go onto a waiting list.

Thank you again for your interest in Northwind Harbor.
